

<b>ACADEMIC INSTITUTION</b>	St. Lawrence College
-----------------------------	----------------------

<b>PROJECT NAME</b>	Project HEW, Green Projects Umbrella
---------------------	--------------------------------------

**NEED AND AUDIENCE**

- According to a report completed by the Global E-waste Monitor in 2020, only 17.4% of discarded electronics were recycled, leading to over 53.6 million tonnes of e-waste being discarded into landfills.
- St. Lawrence College's most recent environmental waste audit indicated that our college only diverted about 47%

**ACTION TAKEN**

- Partnering with Earth Day Canada to host and facilitate multiple workshops centered around living sustainably day-to-day and sustainable food/eating.
- Working with the local Footprint SLC green team to run recycling workshops across the campus to increase the percentage of waste to be properly recycled- aiming to have over 65% of waste diverted by our next waste audit.
- Through the SDG accelerator workshops we hope to both provide education and opportunities for students to take action towards creating new sustainable ventures and projects.

**IMPACT**

- Impact has yet to be determined as these projects will be rolling out from March-May of 2022.
- We estimate 7 workshops with potential reach of 100 participants directly impacted.
- Based on historical data we expect to collect and average of 3.5 tonnes of electronic waste to be diverted and collected.

<b>STANDARD METRICS</b>			
(These metrics are related only to the project presented and represent work done since March 1, 2021)			
Individuals educated on climate action	0	Businesses educated on climate action	0
Litres of water conserved	0	Metric tonnes of waste diverted	0
GHG emissions diverted	0	Dollar value of waste diverted in CAD \$	0
<b>PROJECT START DATE</b>	March 2022	<b>IS THIS PROJECT WHOLLY-OWNED AND OPERATED BY THE TEAM?</b>	<b>Y</b>
